

JHU dataset for `romania`: `delta_pct_confirmed` per `day_index_100` (until 2020-04-10)

The heatmap displays the daily percentage change in confirmed COVID-19 cases for six countries: Romania, Serbia, Ukraine, Moldova, Hungary, and Bulgaria. The x-axis represents the day index (0 to 30), and the y-axis lists the countries. A color scale on the right indicates the percentage change, ranging from 0% (dark purple) to 60% (bright yellow). The data shows varying trends across countries, with some showing high initial growth rates that gradually decrease over time.
